 - Resume (attachment). *Note: Resume should indicate the type of graduate degree you are pursuing.*
- You do not need to include:
 - GPA information
 - Transcript

Program Notes

For MBA and Graduate students, we recommend **Track 2**, which involves one Career Path Workshop, followed by a hands-on Business Case Study Workshop.

If you prefer **Track 1**, which involves back to back Career Path Workshops, you may select that instead.

Career Path Workshops give participants the opportunity to interact with industry professionals and human resources (HR) managers. Participants will learn about specific jobs and companies and gain insight into what HR managers seek in job candidates.

The **Business Case Study Workshop** is a real world business plan case study intended to give participants a chance to put their existing business skills to work, gaining industry specific knowledge and the chance to work closely with fashion business professionals.
